ance Notes on Codes and Abbreviations" appearing at the begin-
ning of each regular issue of the PCT Gazette.

(54) Title: THERAPEUTIC AND PROPHYLACTIC COMPOSITIONS AND USES THEREFOR

(57) Abstract: The present invention relates generally to compositions and their use in the treatment and/or prophylaxis of inflam-
matory conditions in an animal such as a mammal, including a human. More particularly, the compositions of the present invention
comprise agents which modulate the level of expression of genes or the level of activity of gene products involved in eliciting an
inflammatory response and in particular an asthmatic condition. The present invention also provides methods for identifying addi-
tional agents which interact with selected target genes or target gene products, the regulation of which, provide useful means for
treating and/or preventing the development of an inflammatory condition such as asthma. Furthermore, methods of treatment and/or
prophylaxis in an animal such as a mammal including a human, by the administration of a composition of the present invention, are
provided.
